

Private Client Comments

These are some of the comments from clients who have rediscovered their heart and brought it fully into their lives. While, some are immediate impressions, others were received years after working together.

Working with Christine and reading her book were revelations. She didn't tell me how to do things and impose her design aesthetic. Instead, she offered a whole new way to think about our surroundings. We now have more life and tranquility in our home. My den, which I never liked being in, is now my favorite room. It is full of light and color. Our only purchase was a bird feeder that hangs outside a window that was used to be covered by shutters. The shutters are open, the views are lovely, and I feel so lucky to have found Christine. -- *M.G.*

I walk into my home now and I feel like I walk into myself. To say my work with Christine was life changing would have to be a major understatement. Christine is a soul whisperer and her genius has breathed fresh air and energy into every aspect of my life. I feel like a 3 year old in a sandbox—ready to play, ready to take on the world. Thank you Christine--you've given me back myself! *R.S.*

"Thank you for your help. You're providing a great service." *Clint Ross Smith*

I really appreciate your help with the floor plans. We have implemented your ideas and it has DEFINITELY made a difference! We lowered the ceiling of the family room and put in wing walls to "separate" it from the rest of the kitchen. We also put in one door to the sunroom across from one set of French doors on the other side of the family room for a straight axis into the gardens on either side! We also removed the post in the covered porch to give a better view from the playroom and moved the fireplace to the other end. You made some terrific suggestions that have really improved the layout. *Nancy Race*

Your changes are great and have had a huge impact! We like our home so much more and feel it is much more comfortable, enjoyable and beautiful. The entranceway is much more inviting, and I love to see it when I walk in! Thanks!!! *Susan Kirsch*

With the help of Christine, I made a very big positive change in my life and pulled together a beautiful home that better reflects what I want my life to look like now! Maybe you should call it lifestyle design therapy!!! *Danica Kombol*

You will have a blast working with Christine in what with/for some could be a stressful move. All of Atlanta is her friend and playground. Until I took Christine's workshop, putting a home together seemed a monumental task. I am not sure what exactly you're looking for but I can assure you, Christine will make it fun, exciting, comfortable and personally yours. She also has a huge array of folks to help support with various details; someone to deliver a dresser here or there, lighting issues. You name it, she'll know the right person for the job or where to find what. *Jeannie Hartman*

I had the enlightening and eye-opening experience of working with Christine as my lifestyle design consultant and as a participant in one of her workshops. She led me through a variety of exercises and discussions, all of which helped me move from my big stately home into a newly-constructed house. My favorite (but most difficult!) exercise was writing a "home mission statement." She also encouraged me to put together a clip book, saving scraps of paper, favorite quotes, fabric swatches and whatnot. Later, when I hired a decorator, I shared all of this with her. The decorator looked at me in awe and said simply, "You have just saved yourself several thousand dollars." More importantly, I was clear on what I wanted my home to be. *Danica Kombol.*
